## Tutorial 2 - Iscrivere studenti e gestire il loro accesso

Gli studenti si registrano al sito: <https://www.erasmus-epep.eu/register/>

Una volta approvato, i capigruppo possono collocare gli studenti in diversi gruppi, in base al docente:

The screenshot displays the 'Groups' management page in LearnDash LMS. The interface includes a sidebar on the left with the 'Groups' menu item highlighted. The main content area shows a list of groups with the following columns: Title, Modules / Users, Author, Categories, and Date. Three groups are listed: 'Jean-Claude's Group', 'Giuseppe's Group', and 'Alexandre's Group'. The 'Giuseppe's Group' row is highlighted with a red box, and the 'Edit' link is also highlighted. The top right corner has 'Add New' and 'Actions' buttons. The bottom right corner shows '3 items'.

  - Buy now:** The group is protected via the LearnDash built-in PayPal and/or Stripe. Users need to purchase the group (one-time fee) in order to gain access.
  - Recurring:** The group is protected via the built-in LearnDash PayPal/Stripe functionality. Users need to purchase the group to gain access and will be charged on a recurring basis.
  - Closed:** The group can only be accessed through admin enrollment (manual), group enrollment, or integration (shopping cart or membership) enrollment. No enrollment button will be displayed, unless a URL is set (optional).
- Group Price:** An empty text input field.
- Button URL:** A text input field with a help icon (?) to its left.

At the top right of the settings area, there are buttons for 'Switch to draft', 'Preview', 'Update' (highlighted in blue), and a settings gear icon.
